### **Article Number**

ARM985 Chrome/Black - 9423644

Kitchen faucet with turnable spout and pullout nozzle. The spout's turning radius can be limited to between 60 and 270 degrees at 15 degree intervals.

#### Cleaning

Wipe the surface with a soft cloth and lukewarm water and possibly with soap solution. Avoid alkaline, acid-liming or abrasive cleaners.

Brass is a material that over time gets a beautiful patina but can be polished with brass polish. Copper also gets patina but should not be polished. The other shiny surfaces retain their luster.

#### Decalcification

Aerators and shower handles should be regularly decalcified by placing them in a vinegar bath for a couple of hours. Should limescale stains occur, use eucalyptus oil and a soft cloth.

#### Lubrication

Lubricate only with silicone grease.

#### Maintenance

Visit our YouTube channel  $\rightarrow$  where there are instructional videos for changing the ceramic cartridge, changing aerators and more.
