Black Chrome **9418946**

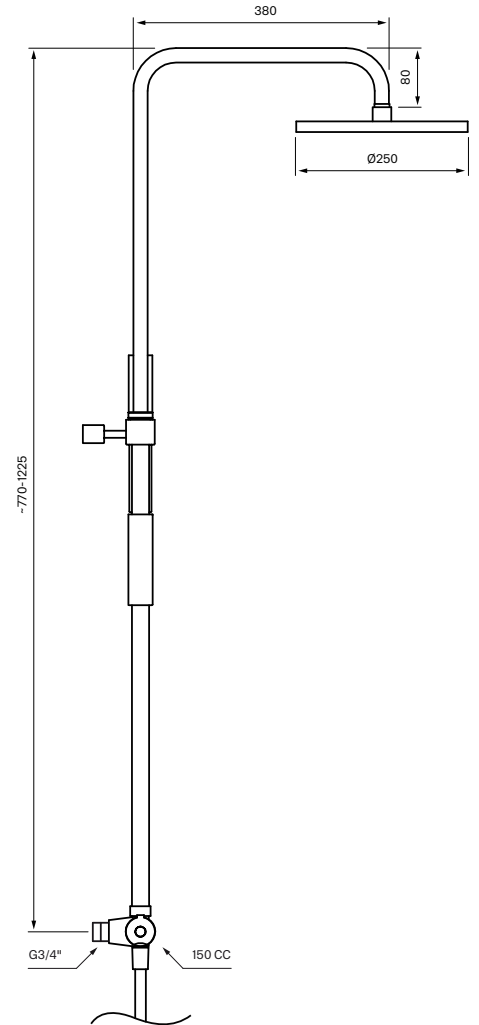

Honey Gold **9419051**

White Gold **9419049**

Matte Black **9419419**

Thermostatic cartridge: **ZVIT500**

Ceramic cartridge: **ZVIT528**

Cleaning

Wipe the surface with a soft cloth and luke-warm water and possibly a mild soap. The surface withstands no basic, acidic, lime dissolving or abrasive detergents.

Brass is a material that over time will get a beautiful patina but can be polished with brass polish.

The other surfaces keep their shine and Honey Gold, Rose Gold and White Gold gets the luster from 2-3% real gold.

Decalcification

Aerators etc shall regularly be decalcified by water and vinegar mix for a few hours.

Lubrication

Lubricate only with silicone grease.

Thermostatic mixer EVM 169

The thermostat is positioned on the hot water side so that only the tempered water is flowing through the mixer body, which saves energy.

Safety lock at 38°C (100°F).

Automatic stop of the flow of hot water.
